Online Survey for
the
Santa Monica Blvd.
NTM Project

The City of Los Angeles Department of Transportation (LADOT) is working with the local homeowner associations to implement a Neighborhood Traffic Management (NTM) plan for the neighborhood streets adjacent to Santa Monica Blvd. The plan area is bounded by: Wilshire Blvd. and Olympic Blvd. to the north and south, Club View Dr./Fox Hills Dr. and Sepulveda Blvd. to the east and west. Funding for this plan is being paid for by the Santa Monica Blvd. Transit Parkway project. This traffic survey will help us identify and address any unintended impacts of the parkway project on the adjacent local residential streets.

Please take a minute to fill out the online survey at www.lacity.org/ladot OR request a mailed survey by calling (213) 928-9700. (Public libraries have free internet access.)

We need to receive your survey by: Sunday, April 15, 2007
